Ariyakulam, Maharajanagar (PO), TIRUNELVELI – 627 011.

EXTENSION ACTIVITY

Organized by Internal Quality Assurance Cell &
RASAYAN VIGYAAN Forum of Department of Chemistry

Date: 24.08.2026 & 25.08.2026

Venue: Chemistry lab

As a part of the extension activity on 24.08.2026 and 25.08.2026, the students and staff members of the Department of Chemistry, Sri Sarada College for Women, Tirunelveli, actively participated in the preparation of household cleaning products, namely phenyl and soap oil. The required chemicals and raw materials were procured from Thirumalai Chemicals, Junction. Under the guidance of the faculty members, the students carried out the preparation process by following appropriate procedures and safety precautions.

A total of 100 L of phenyl and 80 L of soap oil were successfully prepared. The activity provided students with valuable hands-on experience in chemical handling, accurate measurement, product formulation, and teamwork. It also helped them understand the practical application of chemistry in the preparation of commercially useful products.

The prepared products were subsequently handed over to the Department of Business Administration, Sri Sarada College for Women, Tirunelveli, for marketing. This initiative promoted interdisciplinary collaboration and provided students with exposure to the complete process of product preparation, marketing, and entrepreneurship. Overall, the activity enhanced the practical skills, confidence, and entrepreneurial awareness of the students while demonstrating the application of chemistry in everyday life.
