About our Institution: Sri Sarada College for

Women, an Institute of Life training for woman making, was started in 1986 by the Founder-President Swami Chidbhavananda, Sri Ramakrishna Tapovanam. The college with a consistent progress for the past 32 years, currently offers 11 UG programmes, 6 PG programmes (MCA with AICTE approval) and 4 M.Phil (English, Mathematics, Computer Science and Commerce) and 2 PhD (Computer Science and Commerce) programmes with centre for Research under Manonmaniam Sundaranar University. The college promotes basic and applied research in current thrust areas through various funding agencies

About our Department: The Department of computer Science was started in the year 1988 and PG Programme was started in 2016. The department organizes various inter-collegiate Meets, Guest lectures, Seminars, Workshops and Symposia in order to update the students and scholars with current trends in IT sector on par with global trend. The main aim of the Department is to make the students more initiative, integrative and innovative (I-3) towards National spirit by inculcating socially responsible vital IT initiatives.

About the Workshop: Machine learning and statistics are part of data science. The word learning in machine learning means that the algorithms depend on some data, used as a training set, to fine-tune some model or algorithm parameters. This encompasses many techniques such as regression, naive Bayes or supervised clustering. Data Science is a broad term comprising of statistic programming, data visualization, big data, machine learning and much more. ... Machines learn to perform tasks that aren't specifically programmed to do. Many techniques are put into practice like supervised clustering, regression, naive Bayes etc.

Objective of the workshop: The Seminar will focus on sensor technology, communication technology and big data which are used to sense the environmental data to take decisions.
